Injuries reported:	neck strain
Investigating officer:	Officer Jesse Williams, Badge 1015

Occupants of each vehicle

Vehicle	Seat	Name
Vehicle 1 (insured)	Driver	Miranda Rodriguez
Vehicle 2	Driver	Cheyenne Jackson

Officer's narrative

On the afternoon of the reported collision in Pasadena, Texas, Driver 1 was stopped in traffic when the rear of the vehicle was struck by Driver 2. Driver 2 said the impact happened as Driver 1 slowed. Driver 1 reported neck strain and said stiffness began within the hour. A rear impact of this kind can produce that injury, and nothing I observed made the reported symptoms unlikely.

Witnesses at the scene described the collision the same way Driver 2 did, and photographs taken on scene show the vehicles in the positions the parties gave. Driver 1 was in the vehicle at the time, as confirmed by Passenger and by a witness who saw Driver 1 in the driver's seat. I found no earlier dmaage to the vehicle, and Driver 1 is named on the policy covering it.

The damage to Driver 1's vehicle does not match the account given. The dents are on a different side from the impact desrcibed and sit at a noticeably different height. I photographed and measured the damage and referred the discrepancy for further review.
