Officer's narrative

Driver 1 was traveling in the left-turn lane at an intersection in Pasadena, Texas, when the collision occurred as Driver 1 turned left and was struck by Driver 2, who was proceeding through the intersection. Driver 1 stated that a sharp jolt followed the impact and that they felt immediate pain in the lower back and neck. A Passenger was seated in the front passenger seat and was also present in the vehicle at the time of impact, a fact confirmed by both drivers and by the independent witness at the scene. The witness, along with photographs taken at the scene, described the sequence of events in the same way Driver 2 did. The damage to both vehicles is consistent with a side impact of this type, with the front quarter of Driver 2's vehicle meeting the driver's side of Driver 1's vehicle. Responding officers obsreved no prior damage to either vehicle, and no earlier collisions involving Driver 1's vehicle are on record. Driver 1 is listed as the named insured on the policy covering the vehicle. Driver 1 was transported for evaluation and reported back pain consistent with the forces involved in this collision.
