## Claim Notes

|---|---|
| **Claim number:** | C-1133 |
| **Claimant:** | Alexandra Harris |
| **Adjuster:** | Christopher Wong |

2024-01-29
Claim opened after a side impact at a signalized intersection, with the insured vehicle strcuk on the driver side by a vehicle entering from the cross street. The claimant reports neck pain and has retained counsel, who has asked that all contact go through their office.

2024-02-13
Reviewed the policy and confirmed the driver is named on it and that coverage was active at the time of loss. Nothing in the file suggests the damage predates the policy start.

2024-02-16
Obtained the statements of the other driver and two independent witnesses, all of whom describe the collision the same way. Scene photos are consistent with that account.

2024-03-06
Inspected the vehicle. The damage is mostly in line with the described impact, concentrated on the driver-side door and quarter panel, and no prior damage to the vehicle is known from our records or the repair history.

2024-03-28
Medical records show a whiplash diagnosis, which is a plausible injury for a crash of this type. No earlier injury to the same area is known from the records obtained so far.

2024-04-07
Treatment followed a usual course, with physical therapy and medication, and the claimant's symptoms tapered as they improved. Follow-up visits have become less frequent.

2024-06-15
In a recorded interview the claimant added some small details about the sequence of events, but the core account has not changed. It is still unclear from the statements where in the vehicle the claimant was seated at impact, and I have asked counsel to clarify.

2024-06-29
Based on the evidence reviewed so far, the claim is consistent with the reported loss and injury. Continuing to monitor the treatment record and will request a final medical summary before setting a settlement range.

Q: Thanks for taking the time to speak with me today. This recording is for claim file purposes. Can you confirm you're comfortable with us recording?

A: Yes, that's fine.

Q: Great. Can you walk me through what happened at the intersection in Houston?

A: I was driving through the intersection on a green light. I had just passed the crosswalk when a car coming from my right ran the red and struck the driver's side of my vehicle.

Q: Did you see the other vehicle before the impact?

A: Only for a second. I noticed it coming fast and tried to brake, but there wasn't time to avoid it.

Q: Were you able to get out of your car afterward?

A: Yes, but I felt stiff right away. My neck snapped forward and then back, and I had a headache within an hour.

Q: Did you seek medical attention?

A: I went to an urgent care clinic that evening. They checked my neck and back, took some X-rays, and told me it looked like whiplash. They gave me a neck brace and some medication for the pain.

Q: Have you had any follow-up care since then?

A: I've been seeing a physical therapist twice a week. The neck pain is still there, especially when I turn my head or sit at a desk for long periods.

Q: Did you have any pain or stiffness in your neck or back before this accident?

A: No, not that I can recall. I was active and didn't have any ongoing problems.

Q: Thank you. Is there anyhting else you'd like to add about the accident?

A: Just that I'm still missing work some days because of the pain, and I'd like the claim to reflect that. Thank you for your time.

Q: Thank you. We'll be in touch with next steps.
