Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle coming from the cross street struck the driver's side of my car. The impact psuhed my vehicle sideways and I felt my head snap forward and then back against the headrest. I stayed at the scene until the police arrived and gave them the same description of what happened that I give here. In the days since, I have remembered a few smaller details, such as the other car's speed and the position of a parked van, but the core sequence has not changed. I am the named driver on this policy, and I have been seeking treatment for neck pain and stiffness caused by the collision.
