Description of the accident (claimant's words)

I was making a left turn at an intersection in Pearland, Texas, when another vehicle struck the side of my car. I had the green light and was waiting for a gap in oncoming traffic when the impact came. My head snapped to one side, and I felt a sharp pain in my neck that has continued since then. I gave the same description of how the collision happened to the officer at the scene, to the adjuster on the phone, and to the mediacl staff who examined me, and nothing I have said has changed. I am staying with the policyholder, who is a family member and lives in the same household, and I am driving the vehicle with their permission. I would appreciate prompt review of this claim so that I can get the treatment my neck strain requires.
