Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle coming from my right ran the red and struck the passenger side of my car. The impact pushed my vehicle sideways and I felt my head snap forward and back against the seat. I got out and spoke with the other driver and the responding officer, and I have described the events the same way every time I have been asked since then. My neck is stiff and sore, and my lower back aches when I sit or stand for long periods. I am the household member who was driving the car, as I live with the policyholder, and I am submitting this statement so the claim can be reviewed. I have followed the treatment plan my doctor recommended and will provide records as they become available.
