Description of the accident (claimant's words)

I was stopped at a red light on a main road in Pearland, Texas, when the car behind me struck the rear of my vehicle. The impact was firm enough to push me forward against my seatbelt. I got out briefly to check the damage, then waited at the scene for the other driver and the responding officer. Since then I have described the collision the same way each time I have spoken with the adjuster, my doctor, and the body shop: the light was red, I had been stationary for several seconds, and the other vehicle did not slow down in time. I am the named driver on this policy and I am submitting this claim on my own behalf. Since the accident I have had persistent stiffness and soreness in my neck and lower back, which my physician has diagnosed as a neck and back strain. I am currently attending physical therapy and have been advised to limit lifting and long periods of driving.
