Description of the accident (claimant's words)

I was changing lanes on a multi-lane road in Pearland, Texas, when the car in the lane beside me drifted over and clipped the side of my vehicle. I pulled onto the shoulder right away and stayed in my seat until I could breathe normally. My knee struck the dashboard during the impact and has been sore and swollen since. I have explained what happened the same way each time I have spoken about it, to the other driver, to the officer who came to the scene, and to the medical staff who examined me. I am the named driver on this policy and was the one operating the vehicle at the time. I am submitting this statement so the claim can be reviewed, and I will provide any further records or photographs that are needed.
