Claim Notes

Claim number:	C-1140
Claimant:	Jill Wyatt
Adjuster:	Valerie Rodriguez

19 Jul 2024
Claimant's attorney confirmed representation today and asked that all contact go through their office. Received the initial loss notice dsecribing a left turn collision at an intersection, with the claimant reporting neck pain after the impact.

18 Aug 2024
Reviewed the photos submitted with the first report. They show the rear-quarter damage and the front-end damage on the other vehicle in the places one would expect from the described impact, and the vehicle damage lines up with the account given. The driver is named on the policy and the police report places the claimant in the vehicle at the scene.

2 Nov 2024
Spoke with the claimant through counsel. The account matched what was told at first notice, with the same sequence and the same description of the turn, and no new details came up. No independent witnesses have come forward, so the photos and the police report are carrying most of the weight on the crash details.

24 Nov 2024
Pulled the vehicle history. No earlier damage to this vehicle is on record, and nothing indicates the damage predates the coverage start. Also noted a minor neck strain treated years ago that healed fully and was not connected to the current complaint, which I will need to clarify with the treating provider.

29 Nov 2024
Treatment records received. The care followed a usual course for this kind of soft tissue injury, with the frequency of visits tapering as the patient's symptoms improved. The reported whiplash fits the kind and force of the impact.

4 Jan 2025
Summary: the injury, the damage, and the claimant's account are consistent with one another and with the ploice report. Recommend moving to evaluation of the bodily injury claim under counsel's demand, pending receipt of the prior treatment records.

Recorded Statement

Claim number:	C-1140
Statement of:	Jill Wyatt
Taken by:	Valerie Rodriguez
Date:	11 Jul 2024

Q: Thank you for giving us a few minutes today. This recorded statement concerns the collision you were involved in while riding as a passenger in Houston, Texas. Is it all right if I record this conversation?

A: Yes, that's fine.

Q: Please tell me where you were sitting in the vehicle at the time of the collision.

A: I was in the front passenger seat. The driver was taking a left turn at an intersection when another car came through from the opposite direction.

Q: Do you recall whether the vehicle you were in was completing the turn or had already begun it?

A: We were in the middle of the turn. We had been waiting for a gap in traffic, and then the other car hit us on the driver's side area, toward the front.

Q: Did you see the other vehicle before impact?

A: Not really. I looked up just as we were moving, and there was a bright set of headlights, then the impact.

Q: Did you hit your head or any part of your body on anything inside the vehicle?

A: My head snapped forward and then back. I didn't strike anything directly, but my neck jerked hard.

Q: When did you first notice pain or stiffness?

A: I felt a dull ache in my neck within an hour or so. By the next morning, the stiffness had spread into my shoulders and upper back, and turning my head to check mirrors hurt.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to a clinic the following day and I've been seeing a physical therapist twice a week since then.

Q: Is there anything else you'd like to add before we finish?

A: No, I think I've covered it. I just want to get my neck back to normal.

Q: Thank you. This concludes the recorded statement.
