Bodily Injury Unit

Claim Notes

Claim number:	C-1141
Claimant:	Dylan Jackson
Adjuster:	Alison Sweeney

01/06/2025
First notice of loss received for a low-speed collision in a parking lot involving the insured vehicle and a second vehicle. The claimant reports a wrist fracture and is represented by counsel, so all further contact will go through the attorney's office.

01/09/2025
Reviewed the police report and statements from two witnesses along with photos from the scene. Both witnesses and the other driver describe the accident the same way, and the claimant is confirmed as being in the vehicle at the time.

04/23/2025
Inspected the insured vehicle and the damage matches the impact described by all parties. No earlier damage to the vehicle is known, and nothing in the file suggests the damage predates the coverage period. The driver is named on the policy.

04/26/2025
Medical records show the wrist fracture was treated along a usual course, with care tapering off as the patient improved. It is not yet clear whether the injury came from this crash, since prior records show a small strain in the same area years ago that healed fully.

06/16/2025
The claimant has given the same account of the accident in every conversation so far. Requested the full prior medical history through counsel to help determine causation.

06/17/2025
Next step is to obtain an independent medical review of the records before making any decision on the bodily injury portion of the claim. Reserve remains open pending that review.

Recorded Statement

Claim number:	C-1141
Statement of:	Dylan Jackson
Taken by:	Alison Sweeney
Date:	12/06/2024

Q: Thank you for agreeing to give a recorded statement today. Please state your full name and spell your last name for the record.

A: I'd rather not say my name on tape, if that's okay. I can answer the questions though.

Q: Understood. Can you tell me where you were when the collision happened?

A: We were in the parking lot of a shopping center in Pearland, Texas. I was in the front passenger seat of my sister's sedan. She was backing out of a space.

Q: Was the vehicle moving at the time of impact?

A: Yes, slowly. She was reversing and the other car came down the aisle fairly fast and hit the rear driver's side door.

Q: Did you have your seatbelt on?

A: Yes, I always do.

Q: What happened to your body during the impact?

A: I put my arm out to brace against the dashboard. My right wrist hit the glove box area pretty hard.

Q: Did you go to a doctor or emergency room afterward?

A: Yes, that same evening. They took X-rays and said the wrist was fractured. I've been in a splint since then and I'm scheduled for a follow-up next week.

Q: Have you had any prior injuries to that wrist?

A: No, nothing I can recall. It was fine before this.

Q: Is there anything else you'd like to add about the incident?

A: Only that I'm having trouble typing and doing my job right now, so the time off has been hard on me.

Q: Thank you. This concludes the statement.

A: Thank you.
