Claim Notes

Claim number:	C-1146
Claimant:	Mike Fox
Adjuster:	Darin Tyler

2024-01-29
Claim received from the insured's driver reporting a collision while turning left at an intersection. The claimant, who is not represented by counsel, reports neck pain following the impact.

2024-04-19
Confirmed that the driver is named on the policy and that the policy was in force at the time of loss. Nothing in the file suggests the damage predates coverage.

2024-05-10
Police report obtained. Officers and two independent witnesses confirm the claimant was seated in the vehicle at the time of impact, and the other driver's account matches the description given to us.

2024-05-24
Scene photographs and the witness statements are consistent with how the accident was described. No earlier damage to the vehicle is known from our records or the repair history provided.

2024-05-26
Claimant was contacted by phone and gave the same account of the collision as in the initial report, including the sequence of the turn and the point of impact.

2024-06-08
Medical records show a whiplash-type injury, which is a plausible result for a collision of this kind. The records also note a minor strain in the same area several years ago that healed fully with no lasting effects.

2024-06-09
Treatment followed a typical course, with physical therapy and follow-up visits tapering as the claimant improved. Discharge notes describe steady recovery.

2024-07-01
Repair estimate reviewed. Some of the listed damage may not be attributable to this impact, and it is not yet clear whether all of it resulted from this collision. Requested a supplemental inspection to separate the areas.

2024-09-04
Claimant again gave a consistent account during a follow-up call. File referred for evaluation of the injury claim and the remaining vehicle damage items.

Recorded Statement

Claim number:	C-1146
Statement of:	Mike Fox
Taken by:	Darin Tyler
Date:	2024-01-22

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on the recording, if that's okay. You already have it in the file.

Q: That's fine. Can you describe where the accident happened?

A: It was at a signalized intersection in Katy, Texas. I was turning left, heading toward the shopping center on the far side.

Q: What was the signal showing when you began your turn?

A: I had a green arrow for the left turn. Or at least I thought I did. The oncoming traffic had a green light too, so I went.

Q: Did you see the ohter vehicle before the impact?

A: Not really. I glanced up when I was already partway through the turn, and then there was a loud bang and my car spun a little.

Q: How fast were you going?

A: Slow, maybe ten or fifteen miles an hour. It's a turn, you don't go fast.

Q: Did you or anyone else get hurt?

A: My neck and upper back hurt right away. I didn't think much of it until the next morning. Now I have stiffness and headaches, and turning my head to check my blind spot is painful.

Q: Have you seen a doctor since the accident?

A: Yes, I went to urgent care that evening and then started physical therapy. I'm still going a couple of times a week.

Q: Is there anything else you think we should know?

A: Just that I was trying to be careful. I'd like this resolved so I can get back to work without the pain.

Q: Thank you. This concludes the statement.
