Vehicle	Seat	Name
Vehicle 1 (insured)	Driver	Mike Fox
Vehicle 1 (insured)	Passenger 1	Richard Rowland
Vehicle 1 (insured)	Passenger 2	David Velasquez
Vehicle 2	Driver	Thomas Hicks

Officer's narrative

Driver 1 was traveling in the left lane on a commercial roadway in Katy, Texas, when the vehicle began a left turn across oncoming traffic. Driver 2, approaching from the opposite direction, was unable to stop in time, and the front of Driver 2's vehicle strcuk the driver's side of Driver 1's vehicle. Passenger was seated in the front passenger position at the time of impact and was confirmed to be present in the vehicle by responding officers and by statements from both drivers. Driver 1 reported neck pain consistent with whiplash and was transported for evaluation; the reported injury is consistent with the mechanism of a broadside collision of this type. Two independent witnesses gave accounts matcihng the sequence described by both drivers, and scene photographs are consistent with those accounts. Driver 2 acknowledged the collision occurred as Driver 1 described it. Driver 1 is listed as a named insured on the policy under which the vehicle is covered. Officers observed no prior dmaage to the vehicle, and no earlier repairs were reported. It is not possible to determine from the scene alone whether all of the visible damage resulted from this impact, and a further inspection of the vehicle is recommended to separate any pre-existing wear from damage sustained in this collision.
