Claimant:	Lacey Greene
Adjuster:	Chelsea Hebert

January 3, 2024
Claimant reported a low-speed collision in the parking lot of a grocery store while backing out of a space. Claimant states the other vehicle struck the rear passenger side. Claimant has no lawyer and is handling the claim personally.

February 16, 2024
Claimant described the same sequence of events in a recorded call, and the account matches what was given at the scene. Claimant reports a wrist fracture from bracing against the dashboard as the impact occurred. The reported injury fits the kind and force of a collision like this.

March 8, 2024
Photos from the scene and a statement from a witness in the next row both confirm the vehicles came into contact as described. The damage pattern on both vehicles lines up with the reported impact. No earlier damage to the claimant's vehicle appears in our records or in the photos supplied.

March 12, 2024
Claimant is still not completely clear on which seat position they were sitting in at impact, and says the memory is hazy. This does not change the overall description of the collision. No prior injury to the same wrist or arm is known from the medical history provided.

April 19, 2024
Treatment has run somewhat longer than is typical for this injury, with follow-up visits extending past the usual recovery window. The treating provider has documented the progression in notes sent to us. Nothing in the file suggests the damage predates the policy start date.

April 26, 2024
The driver inovlved is a household member of the policyholder and is covered under the policy as such. Coverage review is complete for the driver and vehicle. Claim remains open pending the final treatment summary and a repair estimate.

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on the recording, if that's okay. You have my claim number.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was in the parking lot of a grocery store here in Houston, driving slowly toward an open space near the front entrance.

Q: What were the weather and lighting conditions like?

A: It was daylight and dry. The lot was pretty busy, so people were moving around a lot.

Q: Walk me throguh what happened.

A: I was backing out of a space when I herad a horn. A silver SUV was coming down the lane fairly fast. I stopped, but it still clipped the rear quarter panel of my car.

Q: Did you see the other vehicle before you started backing up?

A: No, I checked my mirror and didn't see anything. The SUV came from the side, between the parked rows.

Q: How fast would you estimate the SUV was moving?

A: Maybe fifteen or twenty miles an hour. It wasn't a hard impact, but it was enough to jolt me.

Q: Were you injured?

A: Yes. I put my rihgt hand out on the steering wheel and twisted my wrist. I was taken to the emergency room, and they told me it was fractured.

Q: Have you seen a physician since then?

A: Yes, I've had follow-up visits. I'm wearing a splint and I've been told I may need a few weeks of therapy.

Q: Is there anything else you'd like to add?

A: Just that I was driving carefully and I'm willing to provide any photos or paperwork you need.

Q: Thank you. This concludes the statement.
