Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle coming from my right ran its red light and struck the side of my car. The impact spun my vehicle partway around and pushed it towrad the curb. I was held in place by my seatbelt, and the airbags deployed. After the collision I felt sharp pain in my left wrist and could not grip the steering wheel. Paramedics took me to the hospital, where X-rays shwoed a fracture in my wrist. Looking back, I recall a few more details about the moments before impact than I did at the scene, but the core sequence has stayed the same each time I have described it. I am the named driver on this policy and I am providing this account for the claim.
