Description of the accident (claimant's words)

I was backing out of a parking space in a crowded lot in Houston, Texas, when the other vehicle came around the row and struck the rear corner of my car. The impact was not severe, but I was thrown against the door frame and felt a sharp pain in my right knee right away. I have told the same account to everyone who has asked me about it, including the officer at the scene, the adjuster, and the medical staff, and I have not changed any detail. I am the one driving this car because I live in the same household as the policyholder, and I have been covered as a member of that household for several years. I am filing this claim so the knee treatment and the repair to my vehicle can be reviewed under that coverage.
