Description of the accident (claimant's words)

I was making a left turn at a Pearland intersection when another vehicle came through the junction and struck the side of my car. The impact pushed my head sideways and I felt a sharp pain in my neck right away. I stayed at the scene until the other driver and the police had finished their paperwork, and I have described what happened the same way each time I have been asked. Since then I have remembered a few smaller details, such as the lane markings and the weather, and I have shared them openly. The core of my account has not changed. I am listed as a household member on the policy because I live with the policyholder, and I am submitting this claim as a covered driver. I am still receiving treatment for a neck strain and will provide records as they become available.
