## Claim Notes

| | |
|---|---|
| **Claim number:** | C-1152 |
| **Claimant:** | Troy Rodriguez |
| **Adjuster:** | Christopher Wong |

5 Sep 2023
Claim reported by the claimant after a collision at an intersection while turning left, with the other vehicle striking the claimant's car on the driver side. Claimant reports neck pain and has not yet been seen by a medical provider.

22 Sep 2023
Spoke with the claimant, who is not represented by an attorney, and confirmed the basic account of the accident. The claimant described the same sequence of events as in the first report.

9 Nov 2023
Obtained the police report, which places the claimant in the vehicle at the scnee and records the other driver's statement. Witness statements and scene photos match the description given by the claimant.

22 Nov 2023
Reviewed the photos of the vehicle, and the damage pattern is consistent with the impact described. The impact appeared fairly light, which makes the reported neck injury look more significant than I would expect from a collision of this kind.

18 Dec 2023
Checked prior claims and medical history. No earlier injury to the neck or upper back is on record, and no prior damage to the vehicle has been found. Nothing indicates the damage predates the start of coverage.

21 Feb 2024
Confirmed that the driver is a household member of the policyholder and qualifies for coverage under the policy. Treatment has continued for a somewhat longer period than is typical for a strain of this type.

28 Mar 2024
Claimant has given the same account in each convesration so far. Based on the evidence reviewed, the claim remains open pending the medical records and the final treatment summary.

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you please state your full name for the record?

A: I'd rather just keep it to the accident, if that's okay.

Q: That's fine, but I do need you to confirm you're the person who was in the vehicle that was involved in the collision.

A: Yes, I was the passenger in the car.

Q: Okay. Can you walk me through what happened in your own words?

A: We were in Pasadena, Texas, heading to a store. The driver was making a left turn at an inetrsection and another vehicle came through and hit us on the passenger side of the car.

Q: Was the driver turning on a green light or a flashing arrow?

A: I think it was a green light. I was looking at my phone so I didn't pay close attention.

Q: Did you feel the impact right away?

A: Yes. I was jolted forward and then pushed back into the seat. My head snapped a bit.

Q: Did you hit anything with your head or body?

A: No, I don't think so. My head didn't hit the window or anything like that.

Q: When did you first notice pain or stiffness?

A: Later that same evening. My neck got stiff and sore, and by the next morning it was harder to turn my head to the left.

Q: Have you seen a doctor or other provider for this?

A: Yes, I went to an urgent care clinic two days after the accident. They diagnosed a neck strain and gave me some medication and exercises.

Q: Have you had any prior neck or back problems?

A: Nothing serious. I had some stiffness now and then from sitting at a desk, but nothing I needed treatment for.

Q: Is there anything else you think I should know about the accident or your injuries?

A: Not that I can think of right now. I'm still doing my physical therapy exercises.

Q: Thank you. We'll follow up in writing with next steps.
