Description of the accident (claimant's words)

I was sitting in the front passenger seat when our car was struck while turning left in Pasadena, Texas. The impact came from the other vehicle as we were partway through the turn, and I felt a hard jolt that snapped my head sideways and then back. Right away I had pain and stiffness along the back of my neck, and by the next morning the discomfort had settled into a steady ache that made turning my head difficult. I was seen for a neck strain and have followed the treatment plan I was given. I have described what happened the same way to everyone who has asked me about it, including the officer at the scene and the adjuster. The driver is a member of my household and lives with the policyholder, so the vehicle was being driven with the policyholder's permission and covered unedr the policy.
