Claim Notes

Claim number:	C-1153
Claimant:	Ashley Krause
Adjuster:	Jerry Hanson

2023-06-23
First notice of loss received for a side impact at an intersection. The insured's vehicle was struck on the driver's side while proceeding through a green signal, and the claimant reports a knee injury and is now represented by counsel.

2023-07-02
Reviewed the police report, which places the claimant in the vehicle at the time of impact. Statements from two independent witnesses and the other driver describe the collision the same way the claimant does.

2023-08-27
Photographs of the vehicle show crush damage on the driver's side that lines up with the reported point of impact. No prior damage to the vehicle is known, and nothing in the file suggests the damage predaets the policy coverage start.

2023-09-08
Confirmed that the driver is named on the policy and that the vehicle is a listed unit. Coverage is in force on the date of loss.

2023-10-10
Spoke with the claimant's attorney. The claimant gave the same account of how the crash happened as in every earlier conversation, and the knee injury is consistent with a side impact of this kind.

2023-11-06
Medical records show the knee was first treated along a standard course of care. Improvement was steady, and treatment tapered as the claimant recovered. No earlier injury to that body area appears in the file.

2023-11-15
Injury evaluation is consistent with the treatment timeline and the mechanism of the crash. Remaining steps are to obtain final treatment notes from the provider and to close the bodily injury component once the attorney confirms the claimant's recovery status.

Recorded Statement

Claim number:	C-1153
Statement of:	Ashley Krause
Taken by:	Jerry Hanson
Date:	2023-04-23

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision at the intersection in Pearland, Texas. Please state your full name for the record.

A: I'd rather just go by my first name for now, but I can give you the details you need.

Q: That's fine. Can you describe how the collision happened?

A: I was driving through the intersection on a green light. A vehicle coming from the cross street did not stop and hit the driver's side of my car.

Q: Had you been to that intersection before?

A: Yes, I drive through it most weekdays, so I know the timing pertty well.

Q: Were you wearing your seatbelt at the time?

A: Yes, I was. The airbags deployed on my side, so it was a hard hit.

Q: Did you feel any injuries rgiht after the collision?

A: My knee hit the dashboard. I felt pain right away, but I thought I could walk it off. By that evening it was swollen and I could barely bend it.

Q: Have you sought medical treatment since then?

A: Yes, I went to uregnt care the next morning and then saw an orthopedic doctor. They ordered an MRI and I'm currently doing physical therapy twice a week.

Q: Did you have any knee problems before this collision?

A: No, not that I can recall. I played recreational softball, but I hadn't had any problems with it.

Q: Is there anything else you would like to add?

A: Only that I'm still having trouble with stairs and driving for long stretches because of the knee. I'd like to get back to normal as soon as possible.

Q: Thank you. That concludes the statement.
