Bodily Injury Unit

Claim Notes

Claim number:	C-1154
Claimant:	Lori Greene
Adjuster:	Darin Tyler

2024-06-11
Claim received for a side impact at an intersection involving our insured's vehicle and a second vehicle, with a wrist fracture reported by the claimant. Claimant is represented by counsel, and all further contact will go through the attorney's office. Verified that the driver is named on the policy and that the policy was active at the time of loss.

2024-08-06
Reviewed the police report, which places the claimant in the vehicle at the time of the collision. Two witnesses are listed on the report, though neither was present at the scene in a way that could independently confirm the sequence of events. Requested photos from the insured and the claimant.

2024-08-19
Photos received and reviewed. They confirm several details of the collision, including the points of contact on both vehicles. Damage to the vehicle is consistent with the impact as described. No prior damage to the vehicle is known from our records or the insured's account, and nothing suggests the damage predates the coverage start date.

2024-08-23
Spoke with the claimant's attorney, who provided the initial medical records. The claimant's account of the collision was consistent with what was given during the first recorded statement. Wrist fracture is consistent in type and force with the reported impact.

2024-10-23
Reviewed the orthopedic records. Treatment followed a typical course, including immobilization, follow-up imaging, and physical therapy, with the frequency of visits tapering as the claimant improved. Records also show prior tretament for the same wrist within the last two years, and that earlier condition is noted as contributing to some of the current complaints.

2024-11-25
Requested prior records for the earlier wrist condition to separate it from the current injury. Claimant's attorney has been asked to provide them. Follow-up call scheduled with counsel to discuss timing.

2024-11-30
Follow-up call with counsel completed. The claimant's account remains the same in every conversation to date, with no material differences in sequence or description. Prior records received and under review for how they affect the current treatment plan.

2024-12-17
Medical review notes that the current treatment and recovery timeline are reasonable given the injury, with the prior condition likely adding to the overall complaints. No independent witness has come forward to add to the account beyond the police report.

2025-01-09
File remains open pneding final medical summary and the attorney's demand package. Next action is to review the demand once received and reassess the injury evaluation against the complete records.

Recorded Statement

Claim number:	C-1154
Statement of:	Lori Greene
Taken by:	Darin Tyler
Date:	2024-05-26

Q: This is the adjuster speaking. The call is being recorded with your permission. Please state your full name for the record.

A: I'd rather just keep it to the accident details, if that's okay.

Q: That's fine. For the record, can you confirm you were the driver of the vehicle involved in the collision at the intersection in Pasadena, Texas?

A: Yes, I was drviing my sedan. I had a green light going through the intersection.

Q: Can you describe what happened?

A: I was about halfway across when a pickup coming from my right ran the red light and hit the driver's side of my car. The impact spun me partway around. I didn't see him until the last second, so I couldn't brake in time.

Q: Did you notice any traffic signal changes before the impact?

A: My light was green the whole time I was approaching. I'm pretty sure of that.

Q: Were there any other vehicles or witnesses nearby?

A: A car was stopped at the far corner, but I don't know if they saw anything. I didn't get any names.

Q: Did you seek medical treatment after the collision?

A: Yes. Paramedics checked me at the scene, and then I went to the emergency room. They told me I fractured my left wrist. I'm wearing a splint now and I'm waiting to see a specialist.

Q: Are you able to work or perform normal daily activities at the moment?

A: Not really. I'm right-handed and I can't grip or lift much with the left, so it's slowed down everything at home.

Q: Thank you. Is there anything else you'd like to add to your statement?

A: No, I think that covers it. Thanks.
