Claim Notes

Claim number:	C-1155
Claimant:	Randall Duncan
Adjuster:	Darin Tyler

7-19-23
First notice of loss received for a side impact collision at an intersection involving two vehicles. The claimant is represented by counsel, and the claim file has been opened for review.

8-11-23
Obatined the police report and statements from the other driver and two independent witnesses. All of them describe the collision the same way, with the other vehicle entering the intersection and striking the driver's side.

8-31-23
Reviewed the photographs taken at the scene. The damage pattern is largely consistent with the impact described, concentrated on the driver's side doors and rear quarter panel.

9-13-23
Confirmed through the police report and witness accounts that the claimant was in the vehicle at the time of the crash. The driver is named on the policy and coverage was active on the loss date.

9-25-23
Reviewed the policy inception records and the vehicle's prior claim history. Nothing suggests the damage predates the coverage period, and no earlier damage to the vehicle is on record.

9-28-23
Received the medical records from the claimant's counsel. The reported wrist fracture fits the kind of force expected from a side impact of this type, and no prior injury to the same area appears in the records.

11-26-23
Reviewed the treatment timeline. Care followed a typical course, with treatment gradually reducing as the claimant's condition improved and follow-up visits became less frequent.

12-16-23
Spoke with counsel regarding the claimant's account. The claimant has given the same description of the collision in each conversation, and the account aligns with the statements already on file.

1-21-24
Reviewed the repair estimate against the photographs and the reported impact. The scope of repairs is mostly in line with the described collision, and the estimate has been forwarded for internal review.

2-21-24
Updated the file with the current status of the injury and property components. Liability evaluation is progressing, and the claim will be reassessed once the remaining medical bills are received.

Recorded Statement

Claim number:	C-1155
Statement of:	Randall Duncan
Taken by:	Darin Tyler
Date:	7-7-23

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision at the intersection in Sugar Land, Texas. Please state your full name for the record.

A: I'd rather just give you the details of what happened, if that's okay.

Q: That works. For the record, can you confirm you were the driver of the vehicle you were operating at the time?

A: Yes, I was driving my own car that day.

Q: Walk me through what happened as you approached the intersection.

A: I was heading through on a green light. I had slowed down a bit because traffic was heavy. Then a car came from my right side and pulled out into the intersection, and I couldn't stop in time.

Q: Did you see the other vehicle before the impact?

A: Only for a second. It was already moving into the lane when I noticed it. I braked hard and turned a little, but it hit my passenger side.

Q: Did your airbags deploy?

A: Yes, the side curtain and the front one came out. The car was pushed sideways and ended up against the curb.

Q: Were you taken for medical care?

A: An ambulance took me to the hospital. They x-rayed my left arm and found a fracture in the wrist. I'm in a splint now and I have a follow-up with an orthopedic doctor next week.

Q: Is there anything you feel you should add to your account?

A: Only that I was following the signals and driving carefully. I'm still sore and I can't grip things well with that hand yet.

Q: Thank you. This concludes the statement.
