Claim Notes

Claim number:	C-1156
Claimant:	Karen Campbell
Adjuster:	Christopher Wong

9-23-24
Claim opened after a report of a low-speed collision in a shopping center parking lot. The insured driver is named on the policy, and the claimant reported being the driver of the second vehicle involved.

9-28-24
Initial statement taken from the claimant by phone. The claimant reports a wrist injury from the impact and says the other vehicle backed into the claimant's car while it was parked.

10-7-24
Police report obtained. It confirms the claimant was in the vehicle at the time of the incident and lists the other driver's account, which matches the reported sequence of events.

11-24-24
Photos from the scene and the other driver's statement are on file. Two independent witnesses in the lot describe the collision as it was reported to us.

1-3-25
Vehicle inspected. Most of the damage is consistent with the described impact, and no proir damage to the vehicle is recorded in our files or in the appraiser's notes. Nothing suggests the damage predates the coverage start.

4-2-25
Medical records received. The wrist fracture is consistent with the kind and force of the crash, and no earlier injury to the same area appears in the claimant's history. Treatment followed a typical course and eased as the claimant improved.

4-4-25
Follow-up call with the claimant. The account has changed in important ways since the first conversation: the claimant now describes the impact coming from a different direction and recalls a different number of people in the car. The claimant was asked to clarify both points in writing.

4-19-25
Claim file reviewed against the police report, witness statements, photos, inspection notes, and medical records. The core facts are supported, but the claimant's revised account on impact direction and occupants still needs to be addressed before settlement discussions proceed.

Q: Thanks for taking the time to speak with me today. This call is being recorded for the claim file. Can you please state your full name for the record?

A: Yes, go ahead and note that I'm the driver of the vehicle involved in the collision.

Q: Understood. Can you walk me through where and when the collision happened?

A: It was in a parking lot near a shopping center in Katy, Texas. I was pulling out of a parking spcae in the row near the main entrance, and I was going very slowly, maybe five miles an hour.

Q: Did you see the other vehicle before contact?

A: Not right away. I had checked my mirror, but a white sedan came down the lane from my right side pretty quickly. I braked, but we still made contact on my front passenger corner.

Q: Were you injured?

A: Yes. I put my left hand out on the steering wheel when I stopped, and I felt a sharp pain in my wrist. I went to urgent care later that afternoon and they took X-rays. The doctor told me it's a fracture, and I've got a splint and I'm supposed to see a hand specialist.

Q: Did you call for medical assistance at the scene?

A: No, I didn't think it was serious at first. I was shaken up but I could still drive, so I drove myself home and got it checked later.

Q: Did anyone else witness the collision?

A: I didn't see anyone standing nearby. There may have been people inside the store, but I can't say for sure.

Q: Thank you. Is there anything else you'd like to add about the incident?

A: Just that I have photos of both vehicles on my phone, and I can send them to you. I'd like to get this resolved so I can get back to work.

Q: We'll follow up on that. Thank you for your time today.
