Claim Notes

Claim number:	C-1157
Claimant:	Anna Day
Adjuster:	Alison Sweeney

12-21-23
Claim received for a rear-end collision on a city arterial road. The insured vehicle was stopped at a signal when the claimant's vehicle struck it from behind, and the claimant reports neck pain and whiplash symptoms.

12-26-23
Confirmed that the driver is named on the policy and that the policy was in force at the time of loss. Nothing in the file suggests the damage predates the coverage start.

1-25-24
Police report obtained. It confirms the claimant was in the vehicle at the scene, and the responding officer's account matches the reported sequence of events.

2-4-24
Claimant is represented by counsel; all further contact is being routed through the attorney's office. Requested medical records and an itemized treatment list.

2-29-24
Reviewed scene photographs. They confirm the general location and rear-end contact, but there are no independent witnesses to the impact itself, so the account rests on the parties and the records.

3-3-24
Spoke with the claimant's representative. The claimant has given the same account of the collision in every conversation so far, with no changes to the description of how the impact occurred.

3-11-24
Reviewed the medical file. Treatment fololwed a typical course for this type of injury and tapered off as the claimant improved. No prior injury to the same body area appears in the records we have.

5-1-24
Consulted the physical damage estimate and the repair photos. No earlier damage to the vehicle is known. Impact severity appears low, and it is not yet clear whether all the repair items came from this collision, so the damage review is continuing.

5-2-24
The claimed injury severity looks high for a low-speed impact of this kind. Referred the file for further medical and engineering review before any settlement position is set.

Recorded Statement

Claim number:	C-1157
Statement of:	Anna Day
Taken by:	Alison Sweeney
Date:	12-20-23

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you reported in Conroe, Texas. Can you confirm you are the driver of the vehicle involved?

A: Yes, I was driving my own car that day.

Q: Please describe how the collision happened, in your own words.

A: I had stopped at a red light on the main road, and I was waiting for the light to change. The other vehicle came up behind me and didn't slow down in time. I felt a hard jolt from the back.

Q: Were you wearing your seatbelt, and did the airbags deploy?

A: Yes, I had my seatbelt on. The airbags did not deploy, but my head snapped forward and then back against the headrest.

Q: Did you feel any pain or symptoms right after the impact?

A: My neck was stiff almost immediately, and by that evening I had a sharp ache across the back of my shoulders that kept getting worse.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to an urgent care clinic the same day, and then I started seeing a physical therapist. They diagnosed me with whiplash.

Q: Are you still experiencing symptoms?

A: Yes, I still have neck pain, and I get headaches when I sit at a desk for long periods. Turning my head to check my blind spot when driving is difficult.

Q: Is there anything else you would like to add to your statement?

A: No, I think I have covered everything. I am still working with my doctor on the treatment plan.

Q: Thank you. This concludes the recorded statement.
