## Claim Notes

| | |
|---|---|
| **Claim number:** | C-1160 |
| **Claimant:** | Elizabeth Spence |
| **Adjuster:** | Chelsea Hebert |

10 Jan 2024
Claim received from the insured's driver for a rear-end collision on a city arterial road. The claimant is represented by counsel, and all further contact will go through the attorney's office.

30 Jan 2024
Confirmed the driver is named on the policy and that coverage was in force at the time of loss. Nothing in the file suggests the vehicle damage predates the policy start.

19 Mar 2024
Police report and two statements from others at the scene confirm the claimant was in the vehicle at the time of impact. No independent witnesses were identified beyond those statements, so the account rests on the scene photos and the parties' accounts.

19 Apr 2024
Photos from the scene and the repair estimate show damage that matches the described impact. No earlier damage to the vehicle is known from prior claims or inspection records.

17 May 2024
The claimant reports a knee injury from the collision. Based on the mechanics of a crash like this one, the reported injury is plausible. No prior injury to the same body area is known from available records.

14 Jun 2024
Medical treatment followed a usual course and tapered off as the claimant improved. Counsel's follow-up letter adds several small details to the original account, but the core description of the collision has not changed.

16 Jul 2024
Reviewed the file with counsel's correspondence in mind. Treatment records and the claimant's recovery timeline are consistent with the reported injury, and the claim is moving forward for evaluation.

## Recorded Statement

| | |
|---|---|
| **Claim number:** | C-1160 |
| **Statement of:** | Elizabeth Spence |
| **Taken by:** | Chelsea Hebert |
| **Date:** | 28 Dec 2023 |

Q: Thank you for taking the time to give this statement. Please state your full name for the record.

A: I'd rather just go by the claim number if that's okay.

Q: That works for our file. Can you tell me where you were when the collision happened?

A: I was in the right lane on a main road in Katy, Texas, heading toward the freeway. Traffic had slowed down ahead of me, so I was stopped at a light.

Q: Did you come to a complete stop before the impact?

A: Yes, I was completely stopped, foot on the brake. Then I felt a hard jolt from behind.

Q: What kind of vehicle were you driving?

A: A midsize sedan. The back end took most of the damage, and the airbags did not deploy.

Q: Did you speak with the other driver?

A: Briefly. They apologized and said they looked down at their phone for a second. They gave me their insurance card.

Q: Were there any witnesses?

A: I don't think so. A few cars were going by, but nobody stopped that I noticed.

Q: Tell me about your injuries.

A: My right knee hit the dashboard. It swelled up within a couple of hours, and I've had trouble bending it and putting weight on it since. I went to an urgent care clinic that same evening and they took X-rays and told me to follow up with a specialist.

Q: Have you seen that specialist yet?

A: I have an appointment next week. I've been using crutches around the house in the meantime.

Q: Did you have any knee problems before this collision?

A: No, nothing that stopped me from working or exercising.

Q: Is there anything else you think I should know?

A: Just that I'm still having trouble driving because of the pain. I'd like to get this resolved as soon as possible.

Q: Thank you. We'll be in touch with next steps.
