Description of the accident (claimant's words)

I was stopped at a red light in Katy, Texas, waiting to turn left, when the car behind me struck the rear of my vehicle. The impcat was hard enough to jolt me forward against my seatbelt, and I felt a sharp pain in my right knee when it struck the dashboard. I stayed at the scene until the other driver and I exchanged information, and I am the named driver on this policy, so I am reporting the collision myself. Since that day I have recalled a few more small details, such as the exact sound of the impact and where the other car came to rest, but the core of what happened has not changed from what I first described. My knee has been swollen and stiff, and I have been limping when I walk for longer distances. I am providing this account so the claim can be processed, and I am happy to supply photos, repair estimates, or medical records as needed.
