Description of the accident (claimant's words)

I was driving through the intersection on a green light when a car coming from my left pulled out in front of me and struck the driver's side of my vehicle. I braked as hard as I could, but there was no time to avoid the collision. The impact spun my car partway around and pushed it toward the curb. I tried to brace myself against the steering wheel and my left wrist took the force of the impact. The other driver stopped, and we exchanged information while I waited for an ambulance. I have given the same account of what happened to the officer at the scene, to the adjuster, and to the doctors, and I have not changed any detail. I am the named driver on this policy and I was the one operating the vehicle at the time.
