Claim Notes

Claim number:	C-1166
Claimant:	James Wise
Adjuster:	Jerry Hanson

1-23-25
Claim opened for a rear-end collision in which the insured's vehicle was struck from behind at a traffic light. The claimant reports a back strain and is represented by counsel, so all further contact will go thruogh the attorney's office.

3-3-25
Confirmed the driver is named on the policy and that the policy was in force at the time of loss. Nothing in the file suggests the vehicle damage predates the coverage start.

3-14-25
Obtained the police report, which places the claimant in the vehicle at the scene. The responding officer's notes match the account given by the other driver.

3-30-25
Witness statements and scene photographs were received. Both witnesses describe the impact in the same sequence the other driver described, and the photos show damage consistent with that account.

4-16-25
Inspected the vehicle damage. The location and severity of the crush line fit the reported impact, and no prior damage to the vehicle is known from the claim history or the appraiser's notes.

5-22-25
Spoke with the claimant's counsel about the injury. The reported back strain fits the kind and force of a rear-end impact, and the claimant has told the same account of the collision in every conversation so far.

6-3-25
Requested prior medical records from the claimant's providers. No earlier injury to the same body area is known from the claimant's history or the records received to date.

6-15-25
Reviewed treatment records. The care followed a usual course of physical therapy and follow-up visits, and the frequency of visits tapered as the claimant's reported symptoms improved.

7-17-25
Received the latest treatment update through counsel. The claimant is progressing, and the rmeaining care appears to be consistent with the expected recovery timeline for this type of injury.

7-22-25
Reviewed the full file with the other evidence in hand. Liability, injury, and vehicle damage all line up with the reported collision, and the claim is being prepared for evaluation on that basis.

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Let's start with what happened. Can you walk me through the collision in Baytown?

A: I was stopped at a red light on a main road heading east. The car behind me didn't stop in time and hit my rear bumper pretty hard. I felt a jolt and my head snapped back against the headrest.

Q: Were you able to drive your vehicle from the scene?

A: Yes, it was still drivable, but I pulled into a parking lot nearby because my neck and lower back were already starting to hurt.

Q: Did you call for medical help or go to a doctor?

A: I went to an urgent care clinic the same afternoon. They looked at my back and neck, took some X-rays, and diagnosed a back strain. They gave me muscle relaxers and told me to rest and avoid lifting.

Q: Have you had any follow-up treatment since then?

A: I've been to physical therapy twice a week. My back is still sore when I sit for long periods, and bending over to pick things up is hard.

Q: Did you have any pain or problems with your back before this collision?

A: No, nothing serious. I had some minor stiffness now and then from sitting at a desk, but I never needed treatment for it.

Q: Is there anything else you want to add about the accident?

A: Just that the other driver admitted at the scene that they were lokoing at their phone. I'd like that noted.

Q: Thank you. We'll follow up with the next steps by mail. Have a good day.

A: Thanks, you too.
