Officer's narrative

On a clear afternoon in Katy, Texas, Driver 1 was changing lanes when the front quarter of the vehicle contacted the rear quarter panel of Driver 2's vehicle, causing a sideswipe. Both vehicles were drivable and remained at the scene. Driver 1 is listed as the named insured on the policy. Officres reviewed secne photographs, which confirm the position of both vehicles and the general area of contact. The damage to both vehicles is consistent with the impact described by the drivers. Some older scratches appear on the affected panel, and it is not certain whteher they predate this collision. No independent witnesses were located. Driver 2 and the respnoding officer both state that the Passneger was not inside the vehicle when the collision occurred. The Passenger later reported a wrist fracture. The impact appeared minor at the scene, and no airbag deployment was reported. Further medical records and statements will be needed to evaluate the reported injury.
