Claim Notes

Claim number:	C-1169
Claimant:	Alan Weeks
Adjuster:	Alison Sweeney

6-21-24
First notice of loss received by phone from the insured, who reports being rear-ended at a traffic light by another vehicle while stopped in a queue. The claimant is represented by counsel, and all contact will be routed through their office.

6-24-24
Reviewed the police report, which places the claimant inside the vehicle at the time of impact and notes the rear-end pattern. The responding officer's account matches the insured's description of the sequence.

7-11-24
Obtained the photographs taken at the scene and by the body shop. They confirm the location of the damage and the general position of both vehicles after impact.

7-16-24
Inspected the damaged vehicle and compared the rear bumper, tailgate, and tow area damage with the described impact. The pattern is consistent with the reported collision and no unrelated damage was noted.

7-25-24
Confirmed with the underwriting file that the policy was in force and that the driver involved is a household member of the policyholder, so the driver qualifies for coverage under the policy.

9-18-24
Reviewed the vehicle's prior claim and repair history. No earlier damage to this vehicle is known, and nothing in the file suggests the damage predates the start of coverage.

9-22-24
Received the claimant's written statement through counsel. The account of the sequence is consistent with the iintial report, and the claimant has added a few minor details, such as the timing of the stop and the sound of the impact, but the core account has not changed.

10-6-24
Reviewed the medical records submitted by counsel. The reported neck strain is a plausible injury for a rear-end collision of this type, and no earlier injury to the same body area appears in the records provided.

10-22-24
The treatment history follows a usaul course of conservative care, including evaluation, physical therapy, and home exercise. Treatment frequency tapered as the claimant's symptoms improved, which matches the expected recovery pattern.

11-30-24
No independent witnesses have come forward. The available evidence rests on the police report, the scene photographs, the vehicle inspection, and the medical records, which together support the claimed sequence of events.

12-8-24
Discussed the current status with counsel, who confirmed ongoing treatment is nearing completion. Requested the final treatment notes and billing statements to finish the medical review.

12-12-24
Medical review and vehicle evaluation are complete, and the file has been referred for settlement evaluation under the bodily injury and property damage coverages. Next step is to receive the final billing and issue a coverage position letter to counsel.

Recorded Statement

Claim number:	C-1169
Statement of:	Alan Weeks
Taken by:	Alison Sweeney
Date:	4-25-24

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision in Pasadena, Texas. Please state your full name for the record.

A: I'd prefer to just go by the claimant for this, if that's okay.

Q: That's fine. Can you describe where you were sitting in the vehicle at the time of the collision?

A: I was in the front passenger seat. The driver was taking us along the main road toward the shopping center when the car ahead slowed down pretty suddenly.

Q: Did you see the other vehicle before the impact?

A: Not really. I was looking at my phone, so I only noticed when we jolted forward. There was a loud bang and my head snapped back and then forward.

Q: Were you wearing a seatbelt?

A: Yes, I had it on the whole time.

Q: Did you feel any pain right after the collision?

A: My neck hurt almost immediately, and by the next morning it was stiff and sore. Turning my head to the left is the worst. I also got a dull headache that lasted a couple of days.

Q: Did you seek medical attention?

A: Yes, I went to an urgent care clinic that same evening. They checked my range of motion, told me it looked like a neck strain, and gave me a prescription for a muscle relaxer and some anti-inflammatories.

Q: Have you had any follow-up treatment since then?

A: I've been going to a physical therapist twice a week. My doctor wants me to keep that up for a few more weeks and see how things improve.

Q: Has the pain affected your daily activities or work?

A: It has. I had to take some time off from lifting at work, and sleeping has been uncomfortable because of the stiffness.

Q: Is there anything else you would like to add to your statement?

A: Only that I'm still hopeful I'll get back to noraml soon. Thank you for listening.
