Reported injury:	neck and back strain

Description of the accident (claimant's words)

I was stopped at a red light on a main road in Conroe, Texas, when the car behind me struck the back of my vehicle. The impact was firm enough to jolt me forward and back against the seat. I got out briefly to check on the other driver, and we exchanged insurance details at the scene. Since then I have described what happened the same way to everyone I have spoken with, including the adjuster, the medical staff, and the people at my body shop. I am the named drievr on the policy listed on this form. Afterward I felt stiffness and soreness in my neck and lower back, which has made turning my head and sitting for long periods uncomfortable. I have been seeing a physical therapist and following the treatment plan I was given. I am providing this account so the details of the collision are recorded accurately.
