## Claim Notes

| | |
|---|---|
| **Claim number:** | C-1171 |
| **Claimant:** | Thomas Harmon |
| **Adjuster:** | Valerie Rodriguez |

8-6-24
Claim received today for a left-turn collision at an intersection involving the insured's vehicle and a second vehicle. The claimant reports a knee injury from the impact and is not represented by an attorney.

8-18-24
Confirmed the driver is listed on the policy and that the policy was in force at the time of the loss. Covergae appears in order for this claim.

8-30-24
Spoke with the claimant, who described the crash as a left turn that was struck on the driver's side by oncoming traffic. The account was clear and consistent with the iintial report.

9-7-24
Police report reviewed. Officers confirm the claimant was seated in the vehicle when they arrived on scene.

9-8-24
Obtained photos from the scene and statements from two independent witnesses. Both describe the collision in the same way the claimant did, and the other driver's account matches as well.

9-9-24
Reviewed vehicle damage with the appraiser. The damage is largely consistent with the impact described, and no prior damage to the vehicle is known from our records or the claimant's history.

10-21-24
Checked the vehicle's claim and inspection history. Nothing points to damage that existed before the coverage start date.

11-29-24
Medical records received for the knee injury. The type of injury and the force involved in the crash line up well with one another.

12-27-24
Claimant's treatment has continued for somewhat longer than is typical for this kind of knee injury. Requested the treating provider's notes to understand the course of care.

1-11-25
Prior records show a minor strain in the same knee area several years ago. That episode resolved fully with treatment and has no bearing on the current injury based on the medical review so far.

2-8-25
Every conversation with the claimant has produced the same account of events and injuries. Claim remains open pending the final medical review and a settlement evaluation.

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Do you understand and consent to that?

A: Yes, I understand.

Q: Please start by describing where you were when the collision happened.

A: I was driving through League City on a weekday afternoon, heading to a store on the far side of the intersection. I needed to make a left turn across the traffic lanes.

Q: Can you tell me what the signal was showing when you began your turn?

A: It was a green light for my direction, but the oncoming traffic had a gap, and I started the turn when I thought it was clear. Then a vehicle came through from the opposite direction and struck the front passenger side of my car.

Q: Did you see that vehicle before you started moving?

A: No, I didn't. It came into view just as I was already partway through the turn. I braked, but there wasn't time to avoid it.

Q: How fast do you think you were going when you began the turn?

A: I was going slowly, probably about twenty miles per hour, since I was turning.

Q: Were you hurt in the collision?

A: Yes. My right knee hit the dashboard and the pain has been significant. I went to an urgent care clinic that same day and was told I may have a ligament injury. I've been using a brace and I'm scheduled for an MRI.

Q: Have you been able to work since the accident?

A: I've missed several shifts because standing for long periods is very painful.

Q: Thank you. Is there anytihng else you'd like to add to your statement?

A: Only that I'd like the other driver's insurance information documented, and I'm happy to send the clinic records.

Q: Understood. Thank you for your time today.
