Description of the accident (claimant's words)

I was stopped at a red light on a busy road in Sugar Land, Texas, when the car behnid me struck the rear of my vehicle at what felt like a considerable speed. My head snapped back against the headrest and then froward again. I got out of the car shortly after, but I felt dizzy, had a ringing in my ears, and a sharp headache that grew worse over the next several hours. I was taken to be checked, and I was later told I had a concussion. I have described what happened the same way to the officer at the scene, to the medical staff, and to my insurer, and nothing about that account has changed. I am the named driver on this policy and I am submitting this claim for the damage to my vehicle and for my medical treatment.
