Officer's narrative

At an intersection in Pasadena, Texas, Driver 1 was proceeding through the junction when Driver 2's vehicle struck the driver's side of Driver 1's car. Driver 1 reported pain in the left knee and was assessed at the scene. Passenger was also seated in Driver 1's vehicle, and both the responding officer and the parties present confirmed that Passenger was in the car at the time of impact. No independent witnesses observed the collision. Scene photographs confirm several details of the vehicle positions, and the visible damage is largely consistent with the reported side impact. The policy on Driver 1's vheicle lists Driver 1 as a person who may not drive the car. Investigators found no evidence of earlier damage to the vehicle. It is not yet clear whether the knee injury resulted from this crash, and medical follow-up will be needed to determine the cause.
