Description of the accident (claimant's words)

I was backing out of a parking space at a shopping center in Sugar Land, Texas, when my vehicle was struck on the driver's side by a car coming down the aisle. I had just checked my mirror and was moving slowly, so the impact caught me off guard and jolted my head and neck forward and back. I felt stiffness and soreness in my neck within the hour, and I have been dealing with whiplash symptoms since. When I spoke with the adjuster later, I remembered a few more details, such as the other car's position and the lighting in the lot, but the core of what happened has not changed. I drive this vehicle as a member of the household where I live with the policyholder, and I am making this claim under that coverage.
