Claim Notes

Claim number:	C-1181
Claimant:	Chris Wallace
Adjuster:	Jerry Hanson

May 24, 2023
Claimant reported a side impact at a signalized intersection and provided a consistent account of how the other vehicle entered the junction. Police and two independent witnesses confirm the claimant was in the vehicle at the time, and the driver is named on the policy.

June 28, 2023
Photos from the scene and the other driver's statement both match the described impact, and the damage to the claimant's vehicle lines up with a side strike. No earlier damage to the vehicle is known, and nothing in the file suggetss the damage predates the start of coverage.

July 25, 2023
Claimant has reported a wrist fracture, but it is not yet clear whether the injury came from this crash. Medical records are requested to confirm the diagnosis and the mechanism of injury.

August 18, 2023
Treatment so far has followed a usual course, with the claimant attending follow-up visits that became less frequent as the wrist improved. No earlier injury to the same body area is known from the information gathered to date.

November 2, 2023
Each time the claimant has been contacted, the account of the collision has stayed the same in its key details. The claimant is not represented by an attorney and has been answering questions directly.

November 30, 2023
Current status: liability and vehicle damage appear established, while the causation question for the wrist injury remains open pending the medical records. Next step is to review the records and schedule a follow-up with the claimant.

Recorded Statement

Claim number:	C-1181
Statement of:	Chris Wallace
Taken by:	Jerry Hanson
Date:	May 7, 2023

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision at the intersection in Pearland, Texas. Please state your full name for the record.

A: I'd rather just give my name as the placeholder, if that's fine. I'm the driver of the vehicle that was hit on the driver's side.

Q: That works for the file. Can you walk me through what happened leading up to the impact?

A: I was going through the intersection on a green light. I had slowed down a bit because traffic was backed up on the cross street. Then a car came from my right and didn't stop for its red light. It hit the side of my car pretty hard.

Q: Did you see the other vehicle before the collision?

A: Only for a second. I glanced to the right and saw it coming, but there wasn't time to do anything except brace myself.

Q: Where did you feel the impact, and were you able to get out of the vehicle on your own?

A: The impact was on my door, right where I was sitting. I was able to get out with some help from a bystander because my left arm was hurting badly.

Q: Which injury are you most concerned about right now?

A: My right wrist. I fell against the steering wheel and then the door frame. The doctor said it's fractured, and they put it in a splint. I'm giong to need to see a hand specialist next week.

Q: Have you received any medical treatment since the collision?

A: Yes, I went to the emergency room the same day, and I've had two follow-up visits since then. I've been keeping the receipts and the discharge papers.

Q: Thank you. Is there anything else you would like to add to your statement?

A: Just that I was following the rules of the road and I want my car looked at as soon as possible. I'm not able to drive it right now.

Q: Understood. Thank you for your cooperation. This conclueds the recorded statement.
