Claim Notes

Claim number:	C-1182
Claimant:	Lisa Mcdaniel
Adjuster:	Alison Sweeney

1-12-24
Claim reported by the insured's representative, who advised that the policyholder's vehicle was sideswiped while changing lanes and that the policyholder sustained a wrist fracture. The claim was opened and assigned for investigation.

1-31-24
Confirmed that the driver is named on the policy and that the vehicle was covered at the time of loss. Requested the police report and photographs from the scene.

2-5-24
Reviewed scene photographs, which confirm some details of the reported impact. No independent witnesses have come forward, and the only accounts so far come from the parties involved.

3-4-24
Police records and statements from responding parties confirm the claimant was present in the vehicle at the scene. Vehicle damage appears consistent with the sideswipe described, with the damaged panels lining up with the other vehicle's contact points.

3-6-24
Obtained the medical records for the claimant's wrist fracture. The injury is the type and severity expected from a force of this kind, and the treatemnt followed a usual course.

3-18-24
Medical file shows the claimant's treatment tapered off steadily as recovery progressed. No prior injury to the same wrist or arm appears in the records reviewed so far.

4-8-24
Spoke again with the claimant's representative, who confirmed the claimant's account of the lane change. The claimant has described the events the same way in every conversation to date.

5-1-24
Our records show no earlier damage to the insured vehicle. A neighbor contacted us and believes the car was already damaged a few weeks before the claimed date. This statement has not yet been verified and is being noted for follow-up.

6-9-24
Requested the repair estimate and photographs of the vehicle from the repair facility to compare against the impact described and the earlier damage concern raised by the neighbor.

6-12-24
Reviewed the neighbor's account alongside the vehicle records and photographs. The question of pre-existing damage remains open pending further inquiry into the timing.

6-25-24
File remains open. Next steps are to obtain a recorded statement from the neighbor and confirm the repair history before any settlement decision is made.

Recorded Statement

Claim number:	C-1182
Statement of:	Lisa Mcdaniel

Date:	12-13-23

Q: Thanks for agreeing to give this recorded statement. Can you confirm you're comfortable with us recording this call?

A: Yes, that's fine.

Q: Please describe where you were when the collision happened.

A: I was on the highway in Sugar Land, in the right lane, heading toward the exit. Traffic had slowed a little, so I moved over into the middle lane to get around a trcuk that was merging.

Q: Did you check your mirrors and blind spot before you changed lanes?

A: I checked the mirror and I glanced over my shoulder. I didn't see anyone right beside me, so I signaled and started moving over.

Q: What happened next?

A: About halfway into the lane, I felt a bump and heard scraping on my passenger side. A gray sedan had come up alongside me and our cars sideswiped each other. I pulled onto the shoulder right away.

Q: Did you notice the other vehicle before the impact?

A: No, not until it was right there. I don't think it was in my mirror when I looked.

Q: Were you injured?

A: Yes. I put my left hand out to brace against the steering wheel and my wrist took most of the force. It swelled up quickly and I could barely move my fingers. An ambulance took me to the hospital, where they told me the wrist was fractured and I'd need a cast and follow-up with a specialist.

Q: Are you still receiving treatment?

A: Yes, I have a follow-up appointment next week and I'm wearing a splint most of the day. I've also missed some work because I can't drive comfortably or use my left hand for much.

Q: Is there anything else you'd like to add?

A: Only that I'm sorry the accident happened and I hope the other driver is alright.

Q: Thank you. That concludes the statement.

A: Okay, thank you.
