Claim Notes

Claim number:	C-1185
Claimant:	Rachael Roberts
Adjuster:	Christopher Wong

12-18-24

Reported a sideswipe during a lane change on a multi-lane road. The claimant is represented by counsel, and all further contact is being routed through the attorney's office.

12-29-24

Obtained the police report and statements from two witnesses, both of whom describe the other vehicle drifting into the claimant's lane. Photographs taken at the scene show contact along the passenger-side panels, and the other driver's account matches the witnesses.

2-22-25

Inspected the claimed vehicle. The damage pattern is consistent with the described impact, and no earlier damage has come to light in the repair history or prior claims. Confirmed the driver listed on the declarations page is the person who was operating the vehicle at the time of loss.

5-20-25

Coverage was in force on the loss date, and nothing in the file suggests the damage predates the policy's effective date. Claimant reports neck and back strain and has provided medical records; no prior treatment to those body areas is documented.

5-21-25

Claimant's account has stayed the same across each recorded conversation, though it is still unclear from the statements exactly where in the vehicle the claimant was seated at impact. Treatment has followed a typical course and has been tapering as symptoms improve. Whether the injuries were caused by this collision has not yet been determined.

7-21-25

Reviewed the file with counsel's office and requested updated treatment notes to confirm the current status of the claimed injuries. Liability for the property damage appears clear, while the bodily injury component remains open pending medical causation review.

Recorded Statement

Claim number:	C-1185
Statement of:	Rachael Roberts
Taken by:	Christopher Wong
Date:	12-4-24

Q: Thakns for taking the time to speak with me today. This call is being recorded for claim file purposes. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Please describe where you were and what you were doing when the collision happened.

A: I was driving on a multi-lane road in Sugar Land, Texas, heading toward the freeway. I was in the right lane and needed to move left to get into the turn lane up ahead.

Q: Did you check your mirrors and signal before changing lanes?

A: I checked my mirror and I turned on my signal. I didn't see anyone right beside me when I looked, but the other car must have been in my blind spot.

Q: What happened next?

A: As I started to drift over, I felt a jolt and heard scraping along the side of my car. The other vehicle had come up on my left, and we sideswiped each other. Both cars pulled to the shoulder.

Q: Were you injured, and did you seek any treatment?

A: My neck and lower back were sore right away, and by the next morning the pain was worse. I went to an urgent care clinic that same week, and they diagnosed me with a neck and back strain. I've been doing physical therapy twice a week since then.

Q: Are you still experiencing symptoms today?

A: Yes, I still get stiffness when I turn my head and my lower back aches after sitting for a while. Some days are better than others.

Q: Thank you. Is there anything else you'd like to add to your statement?

A: No, I think that covers it. I just want to get the repairs and my medical bills taken care of.

Q: Understood. We'll be in touch with next steps. Thank you for your cooperation today.

A: Thank you.
