Description of the accident (claimant's words)

I was changing lanes on a busy road in Sugar Land, Texas, checking my mirror and signaling before I moved over. Another vehicle came up alongside my car in the lane I was entering and brushed the side of my vehicle, scraping the passenger paenl and pushing me toward the curb before I could correct. I pulled onto the shoulder right away and stayed at the scene until the other driver and I had exchanged our details. I have been the named driver on this policy for the full period of coverage and have kept my documents current. Since the collision I have had stiffness in my neck and a tight, aching pain across my lower back, which I have been treating with rest and physical therapy. I have given the same description of what happneed every time I have spoken with the insurer, the repair shop, and my doctor, and I am glad to provide any further information needed to process this claim.
