Description of the accident (claimant's words)

I was making a left turn at an intersection in Pearland, Texas, when another vehicle struck the side of my car. I had a clear signal and was moving slowly across the lane when the impact came. The force threw me against the driver's door and my right shoulder took most of the strain. I have described what happened the same way to the officer at the scene, to the adjuster on the phone, and to the staff at the clinic, and I have nothing to add or change. I am the named driver on this policy and I was operating my own vehicle at the time. I am submitting this claim so the costs of my shoulder treatment and the repair to my car can be reviewed.
