Officer's narrative

Officers were dispatched to a two-vehicle collision in Pasadena, Texas, where a low-speed head-on impact occurred in the roadway. Driver 1 was seated behind the wheel of the eastbound sdean at the time of the crash, and Passenger was also seated in that vehicle. Driver 1 told officers of neck pain and stiffness following the impact, and the injury complaint is consistent with the direction and force of the collision. Driver 2, operating the westbound pickup, stated that the crash occurred as Driver 1 described. Two witnesses on the sidewalk gave statements that matched both drivers' accounts, and scene photographs show front-end damage to both vehicles consistent with the impact. Neither vehicle showed prior damage in the same areas. Driver 1 was identified as an occupant of the sedan by ofifcers and both witnesses. Driver 1 provided proof of insurance on the sedan, which lists a different named insured. Officers observed no signs of impairment. Both vehicles were towed from the scene.
