Claim Notes

Claim number:	C-1189
Claimant:	Lisa Pacheco
Adjuster:	Jerry Hanson

February 18, 2023
The claimant reported a side impact at an intersection and a wrist fracture from the collision. The injury description fits the kind of force a side impact of this type would produce.

February 20, 2023
The police report places the claimant in the vehicle at the scene, and the responding officer's notes are consistent with the account given at first contact.

February 27, 2023
Two independent witnesses and the other driver each described the collision the same way the claimant did. Scene photographs were also received and reviewed.

April 9, 2023
The damage to the claimant's vehicle lines up with the described impact point and direction. No earlier damage to the vehicle has come to light in our review.

May 17, 2023
The claimant has given the same account in each conversation so far, with no changes in sequence or detail. The driver is named on the policy, and nothing in the file suggests the damage predates the coverage start.

June 5, 2023
Meidcal records show the claimant was receiving treatment for the same wrist and arm condition well before this collision. Most of the current complaints appear to trace back to that earlier condition.

June 15, 2023
Treatment has grown to many times the usual course for this type of fracture, with near-daily visits. Several weeks after the collision, new body areas were added to the claim without a clear link to the crash mechanics.

September 25, 2023
The file has been referred for a medical review of the pre-existing records and the treatment timeline. Settlement discussions are on hold until that review is complete.

Recorded Statement

Claim number:	C-1189
Statement of:	Lisa Pacheco
Taken by:	Jerry Hanson
Date:	February 16, 2023

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the collision at the intersection in Baytown, Texas. Please state your full name for the record.

A: I'd rather not give my full name on a recording, but you have it on file already, so go ahead and use that.

Q: Understood. Can you walk me through what happened leading up to the impact?

A: I was heading through the intersection on a green light, going maybe thirty miles an hour. I had just crossed the middle of the intersection when a car came from my right side and clipped the front of my door area. Honestly, it happened so fast.

Q: Did you see the other vehicle before the impact?

A: Not until right before. I think it was coming in from a side street and didn't stop. I hit the brakes, but there wasn't time.

Q: Were you wearing a seatbelt?

A: Yes, I was.

Q: How did you feel after the collision?

A: My left wrist hurt right away. My arm hit the door frame and the window. I couldn't really grip the steering wheel. Someone pulled me out of the car and the ambulance took me to the hospital.

Q: Do you know what the diagnosis was?

A: They told me it was a fracture of the wrist. I have a cast now and I'm seeing a specialist next week. I can't work the same way right now because I use that hand for most of my job.

Q: Did you receive any treatment at the scene or afterward?

A: Paramedics checked me at the scene, then I was treated at the emergency room. They splinted it and gave me pain medication. I'm still going to appointments.

Q: Thank you. Is there anything you'd like to add?

A: Just that I was driving carefully and I want this hanlded fairly. That's all I have.

Q: Thank you for your time. This concludes the statement.
