Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle coming from my left ran the signal and struck the side of my car. The impact spun my vehicle partway around and pusehd it against the curb. I remember the airbag deploying and the sharp pain in my right wrist as I tried to brace myself on the steering wheel. Bystanders stopped to help, and I gave the same account to the responding officer, to the other driver's insurer, and to my own adjuster each time I was asked. I am the named policyholder on this policy and was the operator of my vehicle at the time. I was taken to a local hospital by ambulance, where the wrist was x-rayed and found to be fractured. I am providing this statement so the claim can be processed.
