Driver 1 was stopped in a traffic lane in Pearland, Texas, when the rear of the vehicle was struck by Driver 2. The damgae to Driver 1's vehicle is largely in line with an impact of this kind, and no earlier damage to the vehicle is known to the responding officer. Passenger was seated in the front passenger seat and reported pain in the right shoulder. Officers and two independent witnesses confirmed that Passenger was inside the vehcile at the time. The shoulder complaint fits the forward and rearward motion described at the scene. Witnesses, scene photographs and Driver 2's own account all agree on how the collision happened. Driver 1 is listed on the policy as a person who may not operate the vehicle, a piont noted for the insurer's review. No citations were issued at the scene while the investigation continues.
