Officer's narrative

On the afternoon of the reported incident, I responded to a parking lot in Katy, Texas, where a two-vehicle collision had been reported at low speed. Driver 1 was reportedly backing out of a space when the rear of the vehicle struck the front quarter of a vehicle driven by Driver 2. Passenger was seated in Driver 1's vehicle at the time. Officers on scene and people present in the lot confirmed that Passenger and Driver 1 were in the vehicle when it moved. No independent witness saw the impact itself. Driver 1 reported a concussion with headache and dizziness, which is consistent with the forces expected in a collision of this type. Photographs taken at the scene show damage to both vehicles that lines up with the described contact point, and I found no indication of earlier damage to either vehicle. Dirver 1 is listed as the named insured on the policy covering the vehicle. Drvier 2 reported no injuries. Both drivers exchanged information, and a copy of the scene photographs has been placed in the case file.
