7-14-25
Requested photos of the vehicle and the lot from the claimant. Photos were received and show damage consistent with a rear-quarter impact.

8-15-25
Spoke with the other driver, who gave an account matching the claimant's description of how the two vehicles came together.

Police report reviewed. The responding officer lists the claimant as an occupant of the vehicle, and two independent witnesses are named in the report.

10-23-25
Obtained statements from both witnesses, who confirm the collision happened as described and that the claimant was in the driver's seat.

10-28-25
Claimant reports a knee injury from the impact and has started a course of treatment with a provider of their choosing. Treatment notes requested.

11-4-25
Reviewed the damage estimate. The repair scope is mostly in line with the impact the photos and statements describe. No prior damage to the vehicle is known from our records or the prior claims search.

Treatment notes received. The injury fits the kind and force of the crash, and care followed a usual course, easing off as the claimant improved.

Claimant disclosed a small strain to the same area several years ago that healed fully. Nothing in the file suggests the current injury was caused by anything other than this collision.

12-21-25
Claimant has given the same account in every conversation so far. Nothing points to dmaage predating the start of coverage. Claim is progressing to settlement review.

Recorded Statement

Claim number:	C-1196
Statement of:	Susan Walton
Taken by:	Jerry Hanson
Date:	5-21-25

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the parking lot collision you reported in Sugar Land, Texas. Please state your full name for the record.

A: I'd rather just keep it to the facts, if that's okay. I'm the driver of the blue sedan that was hit.

Q: That's fine. Can you describe where you were when the collision happened?

A: I was pulling out of a parking space in the middle row of a shopping center lot. It was a busy afternoon, and the lanes were crowded with cars looking for spots.

Q: Which direction were you traveling, and what did you see before the impact?

A: I was heading toward the exit lane. I checked both ways, saw a gap, and started rolling slowly. Then a silver SUV came around the end of the row much faster than I expected and clipped my rear quarter panel.

Q: Did you have any contact with the other vehicle before that moment?

A: No. I hadn't seen it at all until it was already on me.

Q: After the impact, did you get out of your vehicle?

A: Yes, but I felt a sharp pain in my right knee when I stepped down. I had to hold onto the door for a second.

Q: Did you seek medical attention?

A: I went to an urgent care clinic later that evening. They took X-rays and told me to follow up with a specialist beacuse of swelling and trouble bending the knee.

Q: Have you had any prior injuries to that knee?

A: Nothing serious. I had some stiffness years ago, but I was walking normally before this happened.

Q: Is there anything else you would like to add to your statement?

A: Only that I'm still having trouble with stairs and I'd appreciate it if my claim could be reviewed promptly.

Q: Thank you. This concludes the recorded statement.
