| **Reported injury:** | concussion |

### Description of the accident (claimant's words)

I was driving slowly through an intersection in Houston when another vehicle came toward me and we collided head-on, though at low speed. My airbag did not deploy, but my head struck the side window hard enough that I later saw a doctor who diagnosed a concussion. I have held the policy on this vehicle for several years and I am the named driver on it. When I first spoke with the adjuster, I described the impact as coming from the left and said only I was in the car. On reflection, I believe the other vehicle struck us from the right, and I now recall that my passenger was with me, so I want to correct my earlier statement. I am providing this clarification in good faith so the record is accurate.
