Claim Notes

Claim number:	C-1198
Claimant:	Stacy Chan
Adjuster:	Chelsea Hebert

2023-05-23
Claim opened after the claimant reported a low-speed collision while parked in a shopping center lot, and the claimant described neck pain starting shortly afterward. Initial intkae completed by phone, and the claimant confirmed they were the named driver on the policy.

2023-06-22
Reviewed the policy record and confirmed coverage was in force at the time of the reported loss, with no sign of a lapse or a late start. Requested the polcie report reference the claimant gave at intake.

2023-07-08
Police report obtained. It confirms the claimant was in the veihcle at the scene and records the officer's note about the vehicle's position in the lot. No other occupants are listed on the report.

2023-07-24
Claimant contacted by phone to review the account. The claimant described the impact as coming from the rear and mentioned one passenger in the car. Noted both points for follow-up.

2023-08-17
Received photos of the vehicle from the claimant. They show some of the reported contact areas clearly. Checked the vehicle's prior records and found no earlier damage on file.

2023-08-20
Reviewed the photos with the estimate. The dents sit on the opposite side of the vehicle from the reported impact and at a different height than the described contact point. Flagged this for a closer look by a field appraiser.

2023-09-19
Spoke again with the claimant. The account has shifted: the impact is now descriebd as coming from the front, and the claimant now says there were two people in the car. Recorded both changes in the file and asked for a written statement.

2023-10-09
Searched for independent witnesses and contacted the lot management. No independent witnesses were identified, and no security footage from that time was available.

2023-11-19
Medical records received. The whiplash diagnosis is consistent with a collision of this type. No prior injury to the neck or upper back appears in the records, and treatment has continued somewhat longer than is typical for this injury.

2023-11-28
Scheduled the field appraiser inspection and requested the claimant's written statement covering the direction of impact and occupants. Noted that the inspection outcome will guide the next steps.

2023-12-16
Appraiser inspection completed and the findings are under review. Claim remains open pending the written statement, the appraiser's report, and the updated treatment timeline.

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the parking lot collision you reported in Pasadena, Texas. Please sttae your full name for the record.

A: I'd rahter just keep it to the accident, if that's alright.

Q: That's fine. Can you describe where you were when the collision happened?

A: I was backing out of a space near the entrance of the shopping center. It was pretty busy, with carts and people walking between the cars.

Q: What happened as you were backing out?

A: I checked my mirror, saw nothing coming, and started reversing slowly. Then I felt a bump on the driver's side rear. The other car had come up the lane faster than I expected.

Q: How fast would you estimate the other vehicle was moving?

A: Not fast, maybe walking speed or a little quicker. It wasn't a big hit, but it jolted me forward and back.

Q: Did you stop your vehicle immediately after the impact?

A: Yes, I put it in park right away and got out to look at the damage.

Q: Have you sought medical attention since the collision?

A: I went to urgent care the same afternoon. My neck was stiff and I had pain running into my shoulders. They said it looked like whiplash and gave me a neck brace and some medication.

Q: Are you still experiencing symptoms?

A: Yes. Turning my head to the right is hard, and I get headaches toward the end of the day. I've had to take time off from my physical activities.

Q: Thank you. Is there anything you'd like to add to your statement?

A: No, I think that covers it. I'd just like to get my car repiared and get back to normal.

Q: Thank you for your cooperation. This concludes the recorded statement.
