Claim Notes

Claim number:	C-1199
Claimant:	Sarah Morris
Adjuster:	Christopher Wong

2024-11-19
Claim received by phone from the claimant, who reports being rear-ended... no wait, this is a head-on collision. Reviewing the first notice of loss: low-speed head-on collision, claimant reports neck pain and stiffness and has no lawyer representing them at this stage.

2024-12-17
Photos taken at the scene by the claimant show the front-end damage and confirm several details of how the vehicles came together. No independent witnesses have come forward, so the photos are the main visual record for now.

2025-02-01
Police report obtained and it confirms the claimant was in the vehicle at the time of the collision. The responding officer's notes are consistent with the account given at first notice.

2025-03-06
Vehicle inspected. The damage is motsly in line with the impact described, and the pattern of deformation fits a low-speed frontal collision. Nothing in the inspection points to earlier damage on this vehicle.

2025-04-07
Checked prior claims and medical history. No earlier injury to the same body area is on record. The reported whiplash is a good match for the kind and force of this crash.

2025-04-26
Coverage confirmed to be active on the date of loss, with no sign the damage predates the start of the policy. The driver lives with the policyholder and is covered as a household member.

2025-04-29
Spoke with the claimant again. The account has been the same in every conversation so far. Treatment has run somewhat longer than is typical for this injury, so the medical records are being reviewed.

2025-05-23
Next steps are to request the full treatment records and continue the medical review. The file remains open pending thsoe records.

Recorded Statement

Claim number:	C-1199
Statement of:	Sarah Morris
Taken by:	Christopher Wong
Date:	2024-10-03

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the collision you reported in Pearland, Texas. Please state your full name for the record.

A: I'd rather just go by my first name for now, if that's okay.

Q: That's fine. Can you describe where you were driving when the collision happened?

A: I was heading down a two-lane road in the middle of the afternoon. Traffic was light, and I was going maybe twenty-five miles an hour because of a school zone.

Q: What happened next?

A: The other car drfited into my lane. I braked and turned, but we still ended up nose to nose. It didn't feel like a big hit, more like a hard jolt.

Q: Were you wearing your seatbelt?

A: Yes, and the airbags didn't go off, if that matters.

Q: Did you feel any pain right away?

A: Not really at first. Aruond the next morning my neck got stiff, and by that evening I had a headache that kept spreading into my shoulders. Turning my head to check my mirrors is hard now.

Q: Have you seen a doctor since the collision?

A: Yes, I went to an urgnet care clinic two days later. They gave me a neck brace and told me to follow up with a physical therapist.

Q: Do you have any prior injuries to your neck or back?

A: Nothing serious. I had some stiffness years ago after a fall, but I recovered fully and didn't need treatment.

Q: Thank you. Is there anything else you'd like to add?

A: Only that I'm still having trouble sleeping because of the pain, and I want to make sure my treatment gets covered.

Q: Understood. We'll follow up with you about next steps. Thank you for your cooperation.
