Claim Notes

Claim number:	C-1200
Claimant:	Eric Harrington
Adjuster:	Christopher Wong

12 Dec 2023
First notice of loss received for a side impact collision at a signalized intersection involving the insured vehicle and a second vehicle. The claimant reports a back strain and is represetned by counsel, who has asked that all communication be routed through their office.

18 Dec 2023
Reviewed the police report, which records the collision as described and places the claimant in the vehicle at the time. The responding officer noted the points of impact on both vehicles.

29 Dec 2023
Obtained statements from two independent witnesses and the other driver. Each account matches the claimant's description of how the crash happened, including the direction of travel and the signal phase.

28 Mar 2024
Spoke with the claimant's attorney, who confirmed representation and provided a medical authorization. The claimant has given the same account of the accident in every conversation so far.

21 Apr 2024
Inspected the insured vehicle and reviewed scene photographs. The damage to the driver's side and door panel lines up well with the impact described, and no older damage has been identified.

6 May 2024
Confirmed the driver is named on the policy and that nothing in the file suggests the damage predates the start of coverage.

17 May 2024
Reviewed the claimant's medical records. The reported back strain fits the kind and force of a side impact of this type. No prior injury to the same area appears in the records or in the claimant's history.

20 May 2024
Treatment followed a typical course, beginning with urgent care, then physical therapy. Visits have tapered as the claimant's symptoms improved, and the provider's notes reflect steady progress.

29 May 2024
Requested updated treatment notes from the provider to confirm current status. Reviewed the file with the counsel's office to make sure all requested documents are in hand.

23 Jun 2024
Compared the vehicle repair estimate against the inspection findings. The line items correspond to the damage areas documented at the scene, and no unrelated repairs are included.

3 Jul 2024
Based on the current file, the claim is moving forward on the normal timeline. Next step is to review the updated treatmnet notes once received and finalize the evaluation with counsel.

Recorded Statement

Claim number:	C-1200
Statement of:	Eric Harrington
Taken by:	Christopher Wong
Date:	23 Nov 2023

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you were involved in at an intersection in League City, Texas. Please state your full name for the record.

A: I'd rather just keep it to the accident, if that's okay.

Q: That's fine. Can you describe where you were traveling and what the traffic signal showed for you?

A: I was heading through the intersection on the main road. The light had been green for a while, I think. I was going at the normal speed for that stretch.

Q: Did you see the other vehicle before the impact?

A: Not really. It came from the cross street, and I only noticed it when it was almost on me. I braked, but there wasn't time to stop.

Q: Where did the impact land on your vehicle?

A: On the driver's side, toward the back door. The other car hit me at an angle.

Q: Did you get out of the car and speak with anyone at the scene?

A: I got out, yes. The other driver and I exchanged information. Someone at the scene asked if I was hurt and I said my lower back hurt, but I thought I'd walk it off.

Q: When did you first seek medical attention?

A: A couple of days later, because the pain kept getting worse. I went to a clinic and they diagnosed a back strain. I've been doing physical therapy since then.

Q: Are you currently having any limitations at work or in daily activities?

A: Lifting is hard, and I can't sit for long periods. I've had to adjust how I drive, too.

Q: Is there anything else you'd like to add to your statement?

A: No, I think that covers it.

Q: Thank you. This concludes the recorded statement.
