Claim Notes

Claim number:	C-1202
Claimant:	Rachel Wallace
Adjuster:	Christopher Wong

9-1-24
Insured reported a rear-end collision at a stop on a city street. The claimant, who is not represented by an attorney, says they were struck from behind and felt neck pain shortly afterward.

9-5-24
Reviewed the ploicy and confirmed the driver of the insured vehicle is named on it. Coverage was in force at the time of loss, and nothing in the file suggests the damage predates the policy start.

9-28-24
Spoke with the claimant, who described the impact the same way as in the first report. They reported whiplash symptoms and said they have been seen at a clinic.

10-5-24
Received photos of the rear bumper and trunk of the claimant's vehicle. The damage is consistent with the impact described, and the photos show some of the scene details the claimant mentioned.

11-1-24
Obtained the police report. The officer and two bystanders who spoke at the scene state that the claimant was not inside the vehicle when the collision occurred, which conflicts with the claimant's account. No independent witness has been identified who can confirm the claimant's position.

11-14-24
Called the claimant to ask about the conflict in the accounts. They repeated the same description of the crash and said they had stepped out briefly before the collision, without changing any other detail.

11-18-24
Reviewed the medical records received so far. The whiplash diagnosis is plausible for a collision of this type, and no prior injury to the neck or upper back appears in the claimant's history. Treatment has continued somewhat longer than is typical for this injury.

1-29-25
Checked prior claims and vehicle history for the claimant's car. No earlier damage to the vehicle is on record, and nothing indicates an earlier injury claim involving the same body area.

2-28-25
Summarized the file for supervisor review. Medical treatment duration and the disputed position of the claimant at impact remain open items, and the damage and injury evidence are otherwise consistent with the reported loss. Next step is to request the teratment billing and a recorded statement from the claimant.

Recorded Statement

Claim number:	C-1202
Statement of:	Rachel Wallace
Taken by:	Christopher Wong
Date:	7-22-24

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision in Pasadena, Texas. Please state your full name for the record.

A: I'd rather just give my first name and keep the rest private, if that's okay.

Q: That's fine. Can you tell me where you were sitting at the time of the collision?

A: I was in the front passenger seat. My friend was driving, and we were stopped at a light on the main road.

Q: Did you see the other vehicle before it hit you?

A: Not really. I was looking at my phone. The first thing I remember is a big jolt from behind and my head snapping forward and then back.

Q: Did you feel any pain right away?

A: Not immediately. By that evening my neck was stiff and I had a dull ache running into my shoulders. Over the next couple of days it got worse, and I started getting headaches.

Q: Have you seen a doctor or ohter medical provider since the collision?

A: Yes, I went to an urgent care clinic the same night and then followed up with my primary care doctor. I've also started physical therapy twice a week.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Has anyone else been in the vehicle with you or been involved in any other incidents recently?

A: No one else was hurt. I haven't been in any other accidents that I can think of.

Q: Thank you. Is there anything you would like to add to your statement?

A: Just that the pain has been affecting my sleep and my ability to work a full shift, so I'm hoping this gets resolved soon.

Q: Thank you for your cooperation. This concludes the recorded statement.
